Date: 10 November 2012

Dear Keith,

I would like to thank you for your efforts over the last 12 months during our building project. You have assisted us to make the project a great success. We have enjoyed working together with you and have benefited from your extensive experience and knowledge.

The challenges today of planning and executing projects like ours require expertise from several disciplines. You have coordinated these requirements well and this is testimony to your organizations flexibility and experience.

Best of luck in your future endeavours – I wholeheartedly recommend your organization for appropriate projects.

Best regards,

Roger Sheard
